Complete Beginner / Beginner / Intermediate / Advanced

Tell Me More manages to provide a comprehensive curriculum for your learning needs. You can practise vocabulary, take grammar lessons and even practise your conversational skills, with up to 10 levels and more than 40 different activities in each unit. Tell Me More covers all the aspects of learning, speaking and understanding Italian.

The program is well designed, easy to use and offers the most extensive set of features of any French software product available, including powerful speech recognition technology. Speech recognition technology software allows the computer to recognize what you say, assess your pronunciation and correct your mistakes.

Tell Me More is specifically designed to grow with you as you learn Italian. The beginner Italian program has the first two learning levels. Higher levels will take you through the intermediate and advanced Italian learning experience. No matter what your current level of Italian-speaking ability, Tell Me More is an adaptable, fun solution.
