

## Bibliography of New Zealand population ageing research June 2005 – December 2008

This bibliography has been compiled by the independent Working Group to enhance population ageing research.

It seeks to build upon the previous bibliographies produced by the New Zealand Institute for Research on Ageing (NZiRA), and uses the categories developed in the 2005 bibliography, with some additions.

See the NZiRA website for the 2005 bibliography <http://www.victoria.ac.nz/nzira/>

Note – focus is on completed research rather than policy documents and strategies or conference papers.

Sources used to compile this bibliography include:
