# The 5 Ways of Working

**Involving** a diversity of the population in the decisions that affect them.

Working with others in a **collaborative** way to find shared sustainable solutions.

Understanding the root causes of issues to **prevent** them from occurring.

Taking an **integrated** approach so that public bodies look at all the well-being goals in deciding on their well-being objectives.

Looking to the **long term** so as not to compromise the ability of future generations to meet their own needs.
