MANDATORY COURSE REQUIREMENTS

In order to successfully complete this course you are required to attend all Schools unless under special circumstances prior arrangements have been made with the course coordinator.

Students must complete all pieces of assessment to pass the course. Lectures, tutorials, electronic and other distance learning resources, practical and fieldwork may all be an integral part of the learning experience and participation in such activities is regarded as necessary.

ACADEMIC INTEGRITY AND PLAGIARISM

Academic integrity means that university staff and students, in their teaching and learning are expected to treat others honestly, fairly and with respect at all times. It is not acceptable to mistreat academic, intellectual or creative work that has been done by other people by representing it as your own original work.

Academic integrity is important because it is the core value on which the University's learning, teaching and research activities are based. Victoria University's reputation for academic integrity adds value to your qualification.

The University defines plagiarism as presenting someone else’s work as if it were your own, whether you mean to or not. 'Someone else’s work' means anything that is not your own idea. Even if it is presented in your own style, you must acknowledge your sources fully and appropriately. This includes:

- Material from books, journals or any other printed source
- The work of other students or staff
- Information from the internet
- Software programs and other electronic material
- Designs and ideas
- The organisation or structuring of any such material

Find out more about plagiarism, how to avoid it and penalties, on the University’s website:
http://www.victoria.ac.nz/home/study/plagiarism.aspx

USE OF TURNITIN

Student work provided for assessment in this course may be checked for academic integrity by the electronic search engine http://www.turnitin.com. Turnitin is an online plagiarism prevention tool which compares submitted work with a very large database of existing material. At the discretion of the Head of School, handwritten work may be copy-typed by the School and subject to checking by Turnitin. Turnitin will retain a copy of submitted material on behalf of the University for detection of future plagiarism, but access to the full text of submissions is not made available to any other party.

Section 3: Assessment Information

Learning objectives are assessed within the course assessment activities.

ASSIGNMENT SUBMISSION GUIDELINES

The ability to plan for and meet deadlines is a core competency of both advanced study and professional practice. Failure to meet deadlines disrupts course planning and is unfair to students who do submit their work on time. It is expected therefore that you will complete and submit assignments not later than the due date if submitted on Blackboard and well before the due date if submitted by post. Assignments may only be submitted by email if organised with the course coordinator. Some courses require that you access Blackboard and submit all assignments only through this site. Identification of these courses and assignments will be outlined by your course coordinator at your first School.

If ill-health, family bereavement or other personal emergencies prevent you from meeting the deadline for submitting a piece of written work or from attending class to make a presentation, you can apply to the course coordinator for an extension to the due date. Make sure that you keep a hard and/or electronic copy of your assignment until you have received feedback.

Extensions

An extension to a deadline will only be considered where there are extenuating circumstances. An application for an extension must be made by you in writing/e-mail to the course coordinator at least 24 hours before the due date. When communicating your request you must include the following information:

- Name, student number and contact details
- Course code
- Date of submission and request date for new submission
- Reason for extension request
Upon receipt of your request, course coordinators may grant an extension of up to 2 weeks. Any further request for an extension may require Head of School approval.

**Submission**

You must complete and submit your assignments by the due date and in the form specified by your course coordinator. In addition, check for the instructions for your particular assignment. If you are mailing your assignment it must be in the School no later than 5pm on the date of submission.

**Late submission**

Late assignments or assignments with extensions may be subject to delays in marking and may not receive comprehensive feedback.

A penalty will be incurred for late submission of work *where no prior arrangement* has been made as follows:

- Work submitted 7 days after the due date without an extension will receive a 2 grade penalty. For example a B+ to a B-.
- Work submitted 8-14 days after the due date without an extension will receive a 4 grade penalty. For example a B+ to a C-.
- Work submitted more than 15 days (or more) late without an extension will not be marked and will receive an ‘E’ (fail) grade.

**Other marking penalties**

Assignments may also be penalised for poor presentation and for exceeding the word limit or for being seriously under length.

**Feedback**

Student coursework assignments submitted by the due date will normally be returned with feedback within four weeks of the due date.

**Grading**

Grading is according to the University standard as follows:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>85% - 100%</td>
<td>A+</td>
</tr>
<tr>
<td>80% - 84%</td>

</tr>
</tbody>
</table>

**Receipt of assignments (hard copies)**

Please ensure you complete an assignment cover sheet and attach it to the front of each assignment if you submit a hard copy assignment. Electronic copies do not require cover sheets.
Assignment cover sheets will be available on the Blackboard site of your course under Course Templates. All hard copy assignments have to be sent to the course coordinator. If you want your assignment sent back to you in hard copy, complete a self addressed and stamped envelope and attach it to the front of your assignment.

• Ensure you keep a copy of your assignment for your records.

ETHICAL CONSIDERATIONS

The overall goal of the programmes in the Graduate School of Nursing, Midwifery and Health (GSNMH) is to assist students to advance their knowledge and practice. As much of the content for the course revolves around clinical practice and clinical education it is important to maintain clear and appropriate professional boundaries while undertaking study for this course.

Students are expected to ensure that:
• At all times they act within the boundaries of professional Codes of Conduct, professional standards, relevant legislative frameworks and the governance, rules and contracts of their employing organisation
• The work for this course does not constitute a formal research project and all information gathering must be clearly defined and remain within the student’s professional boundaries
• They have regular contact with the course coordinator and raise any issues and concerns at the earliest possible time
• Where any particular person/patient/client is the subject of an assignment, verbal consent is obtained from the person/patient/client. If getting this consent is problematic, they discuss with the course coordinator how to proceed with the assignment
• Where any particular person/patient/client is the intended subject of an article or report, written consent is obtained from the person/patient/client. If getting this consent is problematic, they discuss with the course coordinator how to proceed with the article/report
• At no time in the course do they seek information from or apply interventions to patients/family/whanau that are beyond what is part of their scope and area of practice
• When recording practice-based information students maintain a high degree of ethical and moral comportment, with particular consideration of confidentiality and privacy issues when deciding what and how they record patient/ client information, and how they share practice experiences
• With regard to the confidentiality of practice-based information shared by peers within the context of the course, that they are guided by ethical considerations, their professional ethical Codes, and workplace and legislative requirements
• Colleagues and staff are treated with respect and consideration.

Should students have any concerns regarding their ability to fulfil requirements of the course assessments these must be discussed with the course coordinator. Similarly, if any issues arise in the context of completing course requirements these need to be discussed with the course coordinator.

Ethical approval from Victoria University of Wellington Human Ethics Committee has been obtained for courses at the Graduate School of Nursing, Midwifery & Health.
CONFERENCE & SCHOOL PRESENTATIONS

Students of the Graduate School of Nursing, Midwifery & Health are encouraged to present their work at professional conferences and as papers for publication. Students should discuss this with the course coordinator in the first instance. Dissemination of findings from academic work is a very important part of graduate education and assists clinical teams and professional groups to access up-to-date and new knowledge. Course coordinators will provide academic guidance in relation to the targeted activities, and also in relation to the proper academic processes of authorship and acknowledgement.

For all conference, professional and workplace presentations our VUW Power Point template should be used. You are also required to use this template for all school presentations as part of your assignment requirements. This template is available and can be accessed by those students using Blackboard or you can email: abbey.mcdonald@vuw.ac.nz for a copy of the template to be sent to you.

As a general rule, presentations and papers should cite yourselves as post-graduate students, and name the Graduate School of Nursing, Midwifery & Health as the organisation. In keeping with academic conventions course coordinators and for this paper academic advisors (the staff members who mark your work) who help with the ideas and preparation of the paper/presentation should be directly acknowledged or named as co-authors.
ASSIGNMENT NUMBER ONE

Assignment Name:  Research question and search strategy

Due Date:  2 May 2011

Word limit:  500 words, plus table

This assignment is worth 30% of your final grade.

In 500 words or less, present a research or practice question, discussing the rationale for asking this question. Summarise (briefly) what is currently known about the topic and what you hope your research may help to clarify. Describe the search strategy you have used to locate relevant material to date.

In a table (one example is in Aveyard (2007) p. 112) summarise the literature you have located on the topic of your inquiry to date.

The number of references you include in your table will depend on the amount of material available in your area and on the search strategy you employ (including the limits you decide to set on your search). The review should include a minimum of 15 references.
ASSIGNMENT NUMBER TWO

Assignment Name: Literature Review

Due Date: 3 October 2011

Word limit: as specified by the chosen journal

This assignment is worth 70% of your final grade.

Choose a journal appropriate to your research questions and locate the authors’ guidelines. Using these guidelines write a paper based on your research question and search of the literature.

Remember that the paper must include your research question and search strategy and explain its relevance and significance to your discipline and/or practice area. In other words, you should incorporate the ideas you used for assignment one (this may be refined as a result of the feedback you received).

Your paper should demonstrate a clearly defined argument, and a sound analysis, critique and synthesis of the literature.

You will be writing according to your chosen journal's guidelines for authors, so this will dictate the structure, word limit and referencing style you use.

Appendix: Include the author guidelines for the journal you have chosen with your assignment.
