Working on a Building Site: An ESOL Resource

Resource developed by Nicky Riddiford from authentic data collected by the Language in the Workplace Project, School of Linguistics and Applied Language Studies, Victoria University of Wellington.

Resource available at www.victoria.ac.nz/lwp

Funding received from the Settlement Unit of the Ministry of Business, Innovation and Employment.
About this resource

Who this resource is for
This resource is an English language listening resource designed for learners at a
teacher/elementary level in reading, writing, listening and speaking who come from non-
English speaking backgrounds and who plan to work in the construction industry.

It is designed for use in workplace focused ESOL classes or communication training courses
in English speaking countries, especially, but not exclusive to, Australia and New Zealand.
The book could also be used in one-to-one tutoring contexts.

How this resource is organised
The resource has been developed from recordings of ordinary everyday interactions between
builders as they go about their work on a building site. The recorded interactions were
collected, transcribed and analysed by the Language in the Workplace researchers from the
School of Linguistics and Applied Language Studies at Victoria University of Wellington.

Each of the units in the resource addresses a speech function or set of related speech
functions that are common in the construction industry. The first units focus on
understanding directives on a building site.

Each unit is based on a rerecording of an authentic interaction on a building site. The units
follow a top-down approach where learners are prompted to focus on the general meaning of
the interaction before any intensive focus on the specific language features. The units provide
opportunities for learners to listen to the interaction many times, to focus on and notice
specific language features of the interaction and then to practise these features. Each unit is
divided into the following parts:

1. Pre-listening activities where learners are encouraged to draw on their existing
knowledge of the construction industry.
   a. Setting the scene: Questions to introduce the first unit are: Look at the picture:
      Who works on a building site? What do they do? What do they use? What is
      your experience of working on a building site? Pictures and objects to
      supplement what is provided in the unit would be useful.
   b. Prediction: In this section, learners are asked to predict what might be
      happening from the title and context of the unit. The teacher could then elicit
      possible content words, for example, the vocabulary for the predicted
      equipment and predicted actions.
   c. Pre-teaching of content words: Teachers could use objects, pictures, actions
      wherever possible to supplement the pictures provided in the
      unit.
2. Listening activities. In this section learners are introduced to the listening activity using the top-down approach. Learners are encouraged to discuss their answers together, perhaps in small groups or pairs.

Each unit includes these features:
   a. Listening for the main ideas/gist while looking at the strip story. What is happening? The recording could be played many times.
   b. Listening to notice specific details: vocabulary.
   c. Listening and looking at the text.
   d. Listening for further details, for example, prepositions, actions.
   e. Listening for the language used in the directives.
   f. Listening for strategies for checking and clarifying directives.
   g. Opportunities to practise clarifying and checking.

3. Post-listening activities.
   a. Activities to retell and role-play the interaction.
   b. Suggestions for more open-ended role-plays.
   c. Vocabulary revision with an audio recording.

4. Audio recordings.
   Re-recordings of the authentic conversations that form the basis of each unit are available for downloading from the website. The audio files for most units include:
   a. A word/picture matching exercise.
   b. The whole conversation with the participants speaking at a normal native speaker speed (labelled N).
   c. The whole conversation with the participants speaking more slowly (labelled S).
   d. Short clips of the conversation (slower version) for intensive listening to specific phrases and interactions.
   e. The key vocabulary in the unit.
Understanding and following instructions on a building site

Talk to your partner

Who works on a building site?

What do they do?

What do they use?

What do they say?
Understanding and following instructions on a building site

Unit 5: Drilling the holes

Look at the picture. Tell your partner what you can see.

What are the builders wearing?
What tools are they using?
What are they saying?
Max wants Rob to drill some holes. First Rob needs to mark where the holes are going to be.
1. Vocabulary

a. Here are pictures of some of the words you will hear.

Listen to your teacher and repeat the words.

- pencil
- pocket
- climb up
- ladder
- stud
- drill
- screw hole
- a sec
- mark
- tape measure
- the ground
- 15 mm
b. **Listen** and number the pictures in the order you 
**hear.** The first two are done for you:

   a. **Listen** to the conversation and look at the pictures.

Find out:

Who is talking?
What is happening?
What are their names?
What are they doing?
What does Rob have to do?
Drilling the Holes

Now Rob, chuck this pencil in your pocket for a sec.

Climb up here and just mark the stud with your pencil...

...so we know where to drill the holes. Use your tape measure.

How far apart are the holes?

Ok.

15 mms.

Ok.

Ok.
Marked them all?

Okay, well, can you just drill those holes there now?

Yep.

Yep.

Cheers.
A few minutes later

Done the high ones?

Yep.

Ok, good. Just, just jump off the ladder now.

Ok.

You can do the rest from the ground.

Ok.

Otherwise you’re going to tip off it.
3. **Listen** to the conversation again.

5. What does Rob have to do?

a. Look at the text. Underline what Rob has to do. Look at the pictures to help you. Check with your partner.

Did you find:

Chuck this pencil in your pocket for a sec.
Climb up here.
Just mark the stud

Just drill those holes there now.
Just jump off the ladder now.
You can do the rest from the ground.

b. Talk to your partner

i. What do these words mean: chuck, mark, tip off?
ii. What is a sec? (line 1) What does it mean?
iii. What other words have the same meaning?
iv. What does how far apart mean? (line 4)
v. What is a mm? (line 5). Choose the correct answer from the box below:

| million | millilitre | millimetre |

vi. How many millimetres apart are the holes? (line 5)
vii. How do we write the word millimetre? Choose from the box below:

| ml | mm | cm |

viii. What is the difference between there (line 9) and here (line 1)?
ix. What does cheers mean? (line 11)
x. What does the rest mean? (line 16)
6. Practice with measurements

Rob has to mark the stud to show where to drill the holes. He uses his tape measure.

a. Practise measuring the items on your desk. Tell your partner the measurements using millimetres (mm).

b. Write the measurements.

c. Mark two points on your paper and tell your partner how far apart they are.

7. **Listen** again: What does Rob have to do first?

**Audio clip 2N or 2S**

a. First Rob has to ......

b. Tell your partner what Rob has to do next.

    Next Rob has to ......
8. **Listen again** to the conversation and number the pictures in the correct order. Some have been done for you. Check with your partner.

**b.** What other ways could Max tell Rob to do something?

**c.** **Listen** to the teacher giving instructions using the phrases above. **Do** what the teacher says.
11. Checking and clarifying instructions.

a. **Listen** to the conversation again: What does Rob say to check the instructions?

b. **Listen** and **check**.
   
   *Audio clip 4S*

   Did you hear:
   
   *How far apart are the holes?*

c. Repeat what Rob says to check.

d. Underline the words in the text.

e. What does Rob say to show he understands the instructions?
   
   Did you find: *Yep.*

f. What else could Rob say to show he had understood the instructions?
   
   a. Repeat the key words, for example:
      
      i. *Up here?*
      
      ii. *This tape measure?*
      
      iii. _______________________
   
   b. Repeat the meaning:
      
      i. *So mark the stud first?*
      
      ii. *So mark the holes 15mm apart?*
      
      iii. _______________________

g. What could Rob say if he didn’t understand the instructions?
   
   a. *How many holes?*
   
   b. *Sorry, I don’t understand ‘far apart’. What does it mean?*
   
   c. ________________________?
h. **Look** at the pictures and **tell** your partner what Rob *could* say to check the instructions.

Now Rob, chuck this pencil in your pocket for a sec.

Climb up here and just mark the stud with your pencil ...

... so we know where to drill the holes. Use your tape measure.

15 mm.
A few minutes later

Marked them all?

Okay, well, can you just drill those holes there now?

?

Done the high ones?

Ok, good. Just, just jump off the ladder now.

Otherwise you’re going to tip off it.

You can do the rest from the ground.
12. **Practise** checking and clarifying instructions

a. Tell your partner to do something using **drill**, **bring**, **chuck**, **do**, **climb**, **mark**, **tip off**, **jump off**.

b. Your partner will check the instructions with you by
   i. repeating the key words
   ii. summarising the instructions
   iii. asking you to repeat the instructions.

13. **Look** at the pictures and **retell** the story. **Do** the actions.
14. **Practise** with your partner

Role A (Max): Ask Rob to measure the distance between the window and the door and to tell you the measurement in millimetres. Then ask Rob to mark every 10 mms to show where he will drill the holes. Use some of these words: *mark, pencil, window, door, millimetres, hole, tape measure, drill.*

Role B (Rob): Ask Max to repeat the instructions. Then check by repeating the key words.
