Publications for 2013

Chapter in Book

Journal Contribution - Research Article

Conference Paper in Published Proceedings

Conference - Poster Presentation

Richter I, Fidler A E, 'Functionally significant polymorphisms in tunicate xenobiotic receptors', International Chemical Ecology Conference (Melbourne, Australia, August 2013).

**Conference Unpublished Paper Contribution**

Kivell B M, 'A survey examining the recreational use of *Salvia divinorum* in Wellington, New Zealand', 4th Addiction Symposium (Auckland, New Zealand, April 22nd 2013).

La Flamme A C, 'Regulating disease outcome by antibody responses during schistosomiasis', International Congress of Immunology (Milan, August 2013).

**Awarded Doctoral Thesis**

Atan E H, 'Molecular approaches to tissue transplantation and transfusion medicine in Maori and Polynesian in New Zealand'. 2013.

Cheng J M H, 'The synthesis and biological evaluation of glycosphingolipids for improved cancer immunotherapy'. 2013

Chuluundorj D, 'Type II activation of monocytes in multiple sclerosis'. 2013.

Low, Y.S. Kinetochores are required to fully activate the secretory pathway in elevated ER stress. 2013

Mawalagedera S M, 'Antioxidant Activities of *Sonchus oleraceus* L.'. 2014.

Miller C H, 'Seleno-amino acids a novel class of anti-tuberculosis compounds identified through modified culture screening conditions'. 2013.

Prendergast K A, 'The role of langerin+ CD8+ dendritic cells during systemic bacterial infection'. 2014.

Sauvageau J, 'Purification, characterisation and synthesis of glycerolipids extracted from *L. plantarum* and *B. longum* subsp. *infantis*'. 2013.

Steiger S, 'The Role of TGFβ and Macrophage Differentiation in MSU Crystal-Induced Inflammation'. 2014.

Stone S M, 'Type II Activation of Macrophages and Microglia : Roles in T cell biasing and experimental autoimmune encephalomyelitis'. 2013.
Swain C L, 'Investigation into the environmental survival of *Neisseria meningitidis*'. 2013.

**Awarded Research Masters**

Strydom H 'Evaluation of methods of detection and isolation of non-O157 Shiga-like toxin producing *Escherichia coli*.', (MSc) 2013.
