

Community and Voluntary Sector Research Forum

NOVEMBER 2012

What is 'community' research?

What is it? What is its purpose? Who does it? What is - or should be - its focus? Does it have distinctive aims, questions and methods? Is it research about the sector or for it? These are some of the questions that arise when considering this topic.

Please join us for a panel discussion on this topic. The panel members will be **James King** of Enspiral, **Dr Hilary Stace** of the Health Services Research Centre at Victoria University, **Jan Hinde** from Community Research and **Angele Toomey** from the Department of Internal Affairs.

Each panelist will give a short presentation with questions and discussion to follow.
