School of Government

GOVT 512
MANAGING PUBLIC RESOURCES
(15 Points)

Trimester 2 2016
(CRN 27110)

COURSE OUTLINE

Prescription
This course covers budget planning, expenditure and reporting, financial management, the on-going management of budgets and organisational capital required for the complex organisations of public governance. This course is intended for managers without specialist knowledge or training who need to understand the management of financial and organisational resources.

Course Learning Objectives
Students completing this course will be able to:

1. Explain the application of relevant accounting standards and practices in the public sector context.
2. Explain the purposes, processes and methods of public resource use in the context of managing public organisations and public policy processes.
3. Critically evaluate theories and models of budgetary planning, expenditure and reporting at both the whole of government and individual organisation levels.
4. Apply the principles of public sector financial management in particular management circumstances.
5. Research and critically evaluate public accountability documents including their provision of financial and non-financial information.

This course will not make you an accountant! It is intended for managers who wish to understand more about accounting and financial management, but who do not have a need for in-depth knowledge about, for example, alternative financial reporting treatments of a specific type of transaction.
**Trimester Dates**  
Monday, 11 July to Friday, 16 November 2016

**Withdrawal from Course**  
Formal notice of withdrawal must be in writing on a Course Add/Drop form (available from either of the Faculty’s Student Customer Service Desks or from the course administrator). Not paying your fees, ceasing to attend lectures or verbally advising a member of staff will NOT be accepted as a formal notice of withdrawal.

1. Your fees will be refunded if you withdraw from this course on or before **Friday 22nd July 2016**.

2. The standard last date for withdrawal from this course is **Friday 14 October 2016**. After this date, students forced to withdraw by circumstances beyond their control must apply for permission on an ‘Application for Associate Dean’s Permission to Withdraw Late’ including supporting documentation. The application form is available from either of the Faculty’s Student Customer Service Desks.

**Names and Contact Details**

**Course Coordinator and Lecturer:**  
Dr Rodney Dormer  
Room RH 727, Level 7, Rutherford House, Pipitea Campus  
Telephone: (04) 463 5233 extn. 7009  
Fax: (04) 463 5074  
Email: rodney.dormer@vuw.ac.nz

**Administrator:**  
Darren Morgan  
Room RH 821, Level 8, Rutherford House, Pipitea Campus  
Telephone: (04) 463 5458  
Fax: (04) 463 5454  
Email: darren.morgan@vuw.ac.nz

**School of Government Office Hours:**  
8.30am to 5.00pm, Monday to Friday

**Class Times and Room Numbers**  
This course is delivered in a modular format.

<table>

<tr>
<td><strong>Module Three:</strong></td>
<td>Wednesday, 19(^{th}) October 2016</td>
<td>8.30 a.m.- 5.30 p.m.</td>
</tr>
</tbody>
</table>
Location: Classes will be held on the Pipitea Campus of Victoria University in Wellington and you will be advised of your classroom one week prior to each module by email. The timetable is also available to view on the Victoria University website at [www.victoria.ac.nz/students/study/timetables](http://www.victoria.ac.nz/students/study/timetables).

Attendance is **required** at all teaching days.

**Course Delivery**

This course is delivered in a modular format over three days of 6 hours contact time each (18 hours total) between 9 am and 5 pm on the days indicated above, supplemented by 6 hours (online or face-to-face small group discussions and oral report backs) between module meetings. **Participation in additional work sessions is mandatory.**

Prior to each module you are expected to:

- complete the readings;
- give some thought to the discussion questions; and
- be prepared to report on (and evaluate) the content of the readings.

**Course Content and Readings**

The topic readings for the course are a mixture of official publications, text material and academic articles. They are intended to introduce basic material; to give an understanding of the New Zealand Government’s accounting and financial management system, as well as that of local government; and to provide an academic perspective on some of the issues addressed.

Specific readings for each section of the course are set out on Blackboard. There are no textbooks for the course, but the following publications will be referred to reasonably often:

In addition, throughout the course reference will be made to the accountability documents for central government departments and to the New Zealand Government’s budget documentation available from the Treasury website at: [http://www.treasury.govt.nz/budget/2016](http://www.treasury.govt.nz/budget/2016)

| 1 | The Public Sector Context  
   Public Sector Reform- the Underlying Discourse  
   Public vs. Private Sector Management  
   *What is the role of government?*  
   *What is ‘management’ and does it differ between the public and private sectors?*  
   *Should government be more business like?*  
   *What do we mean by better public service?* |
| 2 | Some key concepts:  
   - inputs, activities, outputs, outcomes/results/strategic intensions  
   - Generally Accepted Accounting Practice (GAAP)  
   - cash vs. accrual accounting  
   - depreciation  
   - the capital charge  
   *If not outcomes then what?* |
| 3. | Authority from Parliament  
   Appropriations  
   The budget and reporting cycle  
   *For your organisation, choose an appropriation;*  
   - how much is it for?  
   - what type of appropriation is it?  
   - what is it for?  
   - what outputs will be delivered?  
   *What information is provided in respect of those outputs?* |
| 4. | The Crown accounts and the budgeting and reporting cycle  
   Fiscal Responsibility  
   *What are the roles of the accountability documents?* |
1. The Public Sector Context

This section will explore some basic ideas which describe and create the underlying context within which public sector financial management and accounting takes place.

We will discuss what it is that governments do and therefore what it is that they manage. We will also discuss what is meant by the term ‘management’ and the extent to which management in the public sector is in any way different from management in the private sector. You should have a view of the extent to which you believe public sector performance can be improved by applying private sector management disciplines?

 Desired Learning Outcomes

You should gain a clear understanding of how New Zealand’s public sector is structured, the various organisations that it encompasses, and the accountability relationships between them.

In exploring the relationship between the public and private sectors you should be able to compare and contrast their differing accountability relationships and management objectives.

 Questions to consider when reading the background material:

• What are the functions of government?
• How is New Zealand governed?
• What makes up the public sector?
• What are the different forms of public entity?
• To what extent, and how, is public management different from management in the private and/or not-for-profit sectors?
• By what criteria should the performance of public sector organisations be evaluated?

 Readings

Required reading:

Further reading:

2. Some Key Concepts

This session will explore the key concepts underpinning accounting and financial management practices in a public sector context. We will cover topics such as cash accounting, accrual accounting, the distinction between capital and operating expenditure, depreciation and cost allocation.

This session will look at what gets included in financial statements and who sets the standards. This session will also cover the “art of accounting” and the concepts of accounting in the public sector. It will look at the underlying incentives in financial reporting and at some of the principles underpinning such reporting.

[NOTE: Students must bring to this session a copy of the Department of Corrections’ Annual Report for 2014/2015. See reference below.]

Desired Learning Outcomes

As stated in the Course Objectives, this course will not make you an accountant. However, it is useful to understand that accounting is an “art” not a “science” and there is often more than one way of recording an economic event or transaction. In addition, to quote Deegan and Samkin (2012), “At present there is no universal agreement on the objective, role and scope of accounting and, consistent with this, there is no single accounting theory that is universally accepted.”

Some of you may find Chapters 2 from New Zealand Financial Accounting (Deegan and Samkin, 2012) quite fascinating, others will probably find this material rather impenetrable and boring and be grateful that you did not graduate in accounting! However, you should skim enough of this chapter to understand something of the conceptual framework within which accounting operates and the difference between ‘positive’ and ‘normative’ theories and the application of ‘critical theory’ to accounting.

A further concept that you need to understand is the difference between ‘cash accounting’ and ‘accrual accounting’.

Questions to consider when undertaking background reading:

- Public sector entities are generally involved in reporting performance.
  - Do financial indicators have any relevance?
  - What’s the significance of a government department making a surplus – is this ‘good’ news or ‘bad’ news?
- Is accrual accounting more useful than cash accounting? Are there any drawbacks?
- Why have accounting standards in the public sector? Who should set them – Treasury, an independent standard setter in NZ, or a world body [the IPSASB]?

Readings

Required reading:

Further reading:

3. **Authority from Parliament**

This session will cover the role of Parliament in authorising the expenditure of public money. We will discuss the different mechanisms (appropriations) by which that authority is granted. We will also ask, what do we mean by ‘accountability’? Who is accountable to whom and for what?

You should then be able to discuss whether good accountability means effective performance?

**Desired Learning Outcomes**

This session is designed to enable students to understand what is an appropriation, how is it granted, and how do different forms of appropriation vary.

You should also form a view on the nature of accountability and how it works in a public sector context.

**Questions to consider when undertaking background reading**

- What is the difference between a departmental and a non-departmental appropriation?
- To what extent do appropriations limit or constrain the activities of public sector organisations?
- How does ministerial and chief executive accountability differ?

**Readings**

Required reading:

4. **The Crown Accounts and the Budget and Reporting Cycle**

In this session we will explore the Crown accounts – where does the money come from and where does it go?

Central to how New Zealand’s public finances are managed are the principles of fiscal responsibility and the related reporting requirements placed on government. We will consider how these are applied in New Zealand and how New Zealand compares with governments elsewhere in the world.

This session will also examine the strategic financial management cycle and discuss some key aspects of financial management applicable to the Crown and how that links to operational planning processes.

We will discuss the rationale for, and behavioural aspects of, budgeting - and the nature of the budget process of the NZ Government. It also examines the documentation that is produced in the budget decision-making process.

**Desired Learning Outcomes**

You should understand why governments budget, how funding is appropriated, and the main features of the legislation that determine the Government’s budgeting process.

In preparation for your Assignment you also need to understand the different methods of going about the budgeting process – including the concepts of ‘zero-based’ budgeting, ‘incremental’ budgeting and ‘reprioritisation’.

**Questions to consider when undertaking background reading**

- Why are the fiscal responsibility provisions of New Zealand’s Public Finance Act 1989 significant? How do they affect the decisions of Government?
- How well do the Crown Accounts reflect the financial position of Government?
- Who sets strategy in the public sector and how is it managed?
- How good is the New Zealand Government’s budget process in allocating resources efficiently and effectively? What constitutes a good budget process and how good is the budget process within your own organisation?
- Does the budget system make cooperation between departments more difficult?
- Are Supplementary Estimates and Imprest Supply subject to adequate review by Parliament?

**Readings**

Required reading:

| 5 | Thinking About Organisations – Conceptual Discrimination  
*Where does your organisation fit?* |
| 6 | Performance:  
- Economy  
- Efficiency  
- *How does your organisation measure and report the economy and efficiency of its performance?* |
| 7 | Effectiveness  
- Equity  
*Who are the organisation’s stakeholders?*  
*What does ‘effectiveness’ mean to each of them?*  
*What are the consequences of their assessments?*  
*What evidence can you find of the equity/fairness with which goods and services are provided?* |
5. Thinking about Organisations

In this session we will further explore the diverse nature and functions of public organisations. Much of the literature on public sector management is concerned with management of the public sector as a whole. This section will explore the requirements and challenges of financial management within individual public sector organisations.

To understand the issues associated with accounting and financial management within public sector organisations we will first consider how those organisations differ and the implications of that for performance measurement and management.

**Desired Learning Outcomes**

This session should enable you to understand how public organisations differ and what implications that has for the management of, and accounting for, their operations.

You should gain an insight into the challenges of managing performance within individual public sector organisations. You should then be able to discuss what and how managers manage within individual organisational settings.

**Questions to consider when undertaking background reading:**

- What functions does an organisation perform?
- To what extent are the activities that support those functions able to be pre-defined or standardised?
- To what extent can the results or impacts delivered by those functions be identified and measured?
- Who controls the budget within the organisation?
- How are the organisation’s outputs costed and how are those costs controlled?
- What are the key challenges facing departmental Chief Executives in ensuring effective financial managements of their agencies?

**Readings**

Required reading:

Further reading:

6. **Performance – Economy and Efficiency**

The next four modules will explore the concept of performance in the context of the public sector – how do we define it and how do we measure and report it. In that respect we will consider a number of different criteria by which organisational performance may be evaluated.

Economy and efficiency, in particular, were a major concern of the public sector reforms of the late 1980s and early 1990s and have remained a significant focus of the New Zealand model of public sector management. The criteria of economy, reflecting the how well funding is used to acquire inputs to an agency’s processes, and efficiency, representing the relationship between an agency’s use of inputs and its outputs, are of concern to public sector managers who must apply limited resources to solve massive objectives and to politicians concerned to avoid any suggestion of public sector profligacy. In times of fiscal constraint they also critically underpin the inevitable trade-offs that ministers and officials must make when choosing and implementing government interventions.

**Desired Learning Outcomes**

You should gain an understanding how the concepts of economy and efficiency apply to different public organisations.

You should also be able to provide a critical analysis of the performance measures and targets in this respect used by public sector organisations.

**Questions to consider when undertaking background reading include:**

- How do different organisations measure and monitor the economy and efficiency of their operations?
- How important are these criteria in evaluating the performance of those organisations?
- Who would/should use that information?

**Readings**

Required reading:

7. **Performance – Effectiveness and Equity**

Effectiveness, or the relationship between an agency’s outputs and the outcomes that they achieve, has received different levels of emphasis between different agencies and over time. In part this reflects the difficulty some agencies have in defining and measuring the linkages between their outputs and the outcomes or impacts that they produce. It also reflects the changing concerns of Ministers.

As a criterion of performance equity is concerned with the way in which services are provided either in terms of the equal availability of services (as in the case of Police services) or the targeted provision of services to those most in need (as is the case with social security benefits paid to invalids).

**Desired Learning Outcomes**

You should be able to discuss the difficulties and implications of measuring the effectiveness of differing public sector functions.

You should also gain an appreciation of the centrality of ideas about equity or ‘fairness’ to the way in which the performance of public organisations is evaluated.

**Questions to consider when undertaking background reading:**

- How can we know if public sector organisations are being effective?
- Who should be responsible for the effectiveness of public sector interventions?
- To what extent can the effectiveness of individual public organisations be identified?
- What do we mean by ‘fairness’ and how can we measure it?

**Readings**

Required reading:

8. **Performance – Organisational Capital & Public Capital**

Organisational capital has been described by Andrews and Boyne (2010) as including:

- capital management,
- financial management,
- human resources management,
- information technology, and
- leadership.
Ultimately, organisational capital represents an organisation’s capability and capacity to deliver goods and services in the future.

As a criterion of performance, Public Capital represents the trust and confidence in an agency held by Ministers, major stakeholders and the general public – factors that contribute to the political salience of, and external influence on, that agency’s core functions.

**Desired Learning Outcomes**

You should understand and be able to discuss the significance of organisational capital and the implications of its erosion.

Similarly, you should be able to discuss the nature of public capital and the role that public officials play in its maintenance and development.

**Questions to consider when undertaking background reading**

- Why does the Public Finance Act 1989 require public service organisations to report on their health and capability?
- What is the proper role and responsibility of public officials in engaging with the public?
- How should those responsibilities be measured and monitored?

**Readings**

**Required reading:**

**Further reading:**

| 10 | The role of audit and the Auditor-General  
*What is the purpose of an audit?*  
*How does a performance audit vary from a financial audit?*  
*Who uses audit reports?* |
| 11 | Managing Accountability with Third Parties  
- funding mechanisms  
- accountability requirements  
- risks  
*What provisions exist in the Public Finance Act 1989 for the funding of third parties?*  
*What risks exist in third party funding arrangements and how should they be measured?*  
*What do we mean by ‘collaboration’?* |
| 12 | The Big Questions and remaining Tensions  
- motives for change  
- legislative amendments  
- the shape of the sector in the future  
*What are the remaining or perennial tensions in the public management system?*  
*Can these be resolved and if so how?* |

9. **A Chief Financial Officer’s Story**

This section of the course will look at the role of the CFO, key relationships and the information needs of stakeholders.

**Desired Learning Outcomes**

The Chief Financial Officer also plays an important role in public sector accountability and in improving public sector management within a Government department. Responsibility for the signoff of the Annual Financial Statements falls to the CEO and CFO which arguably places a higher responsibility on the CFO than in the private sector where the CFO does not have this responsibility.
This session looks at the role of the CFO and gives insights as to how it can add value and what stakeholders should expect.

**Questions to consider when undertaking background reading**

- How does the role differ to that of a CFO in a private sector, should the roles and therefore skill sets required be the same or should they differ?
- Are accountants scorers, measurers and interpreters? Or, are they agents of maintaining the status quo or achieving social change?
- What is the role of the CFO in a public sector entity?
- What are the information needs of stakeholders and how can they be met?

**Reading**

Required reading:

Further reading:

**10. The Role of Audit and the Auditor-General**

This section of the course will examine the role of the Auditor-General, both as an integral part of the integrated financial management cycle and as a reporter to Parliament on accountability and improvement issues.

**Desired Learning Outcomes**

The Auditor-General plays an important role in public sector accountability and in improving public sector management.

This session explains the role of the Auditor-General. It also explores how a public sector audit differs from a private sector audit, with particular reference to performance auditing. And, it answers the often asked question “who audits the auditor?”

**Questions to consider when undertaking background reading**

- What gives an audit value?
- How does an audit by the Auditor-General vary from a private sector audit?
- How does a performance audit vary from a financial audit?
- Given that the Auditor-General performs a mini performance audit (i.e. the audit of SSPs) on most public sector entities, is there any value in him carrying out discretionary performance audits?
- Critically discuss the following statement – “The new legislation [the Public Audit Act 2002] has increased the Auditor-General’s independence, but her accountability to Parliament has remained weak!”
Readings

Required reading:

Further reading:

11. Managing Accountability with Third Parties

It has been suggested that one of the distinguishing features of management in a public sector context is the need to get things done through other organisations. Certainly public sector organisations are increasingly being expected to collaborate with both each other and with organisations in the private and not-for-profit sectors. But what form should that collaboration take and how should accountability be managed between the various parties involved?

**Desired Learning Outcomes**

You should gain an insight into the challenges of managing performance across and with other organisations. This will require an understanding of how those organisations differ.

We will explore the practical realities of the ‘collaborative turn’, devolved governance and tino rangatiratanga.

**Questions to consider when undertaking background reading include:**

- What provisions exist in the Public Finance Act 1989 for funding third parties?
- What risks exist in arrangements for the provision of services by third parties and how are they managed?
- How is decision making power distributed in the arrangements that you are aware of for third party service provision?
- To what extent can ideas of self-determination include the use of public funds?

Readings

Required reading:

Further reading:

12. **The Big Questions and Perennial Tensions**

In this final session we will review the theories and ideas that have previously shaped, and continue to influence, the New Zealand model of public sector management including the problems the system was seeking to address. We will discuss the resulting on-going motives for change in accounting and financial management accounting practice. You should be familiar with the ‘Better Public Services’ report and the 2013 amendments to the State sector legislation. We will explore how these might be implemented, or how they might impact on practice.

This session, and those that have preceded it, are an important resource for your essay.

A great deal has been written about the reform process and your problem is to filter all this information and write an interesting and coherent essay which incorporates your own views and experiences. You should appreciate that in order to carry out an effective evaluation process you need to have a set of criteria to evaluate against. You should also consider the Course Objectives set out on page 3 of the Course Outline.

**Desired Learning Outcomes**

You should be familiar with and able to discuss the objectives, challenges and practical implications of the Better Public Services report and the related changes to State sector legislation.

**Questions to consider when undertaking background reading:**

- What are the “big questions” of public management?
- What issues remain unresolved?
- Can they be resolved?

**Reading**

Required reading:

Further reading:

Expected Workload
The learning objectives set for each course are demanding and to achieve them candidates must make a significant commitment in time and effort to reading, studying, thinking and completion of assessment items outside of contact time. Courses vary in design but all require preparation and learning before the first day of the course and regular learning is also necessary (students who leave everything to the last moment rarely achieve at a high level).

Expressed in input terms, on average, the time commitment required usually translates to approximately 150 hours for a 15-point course. Some of that is set contact time. The rest is your study time and we recommend you study weekly for approximately 8-10 hours.

Mandatory Course Requirements
In addition to obtaining an overall course mark of 50 or better, students must submit or participate in all pieces of assessment required for this course.
Participation in additional work sessions is mandatory.
If you cannot complete an assignment or sit a test or examination, refer to www.victoria.ac.nz/home/study/exams-and-assessments/aegrotat.

Assessment Requirements

The purpose of assessment is three-fold:
- to ensure that you have met the standard of work required for the course;
- to give you feedback on your performance to assist you with your future study; and
- to provide the teaching staff with feedback on the progress of the class.

Formal assessment for the course will be as follows:

| 1 | Wiki 1 | Evaluate the comment, “public organisations should be more business-like”. Due Date: Monday, 18th July 2016 Max length: 1,000 words | 5% | 1 & 2 |
## Essay I

*Due Date: Monday, 15th August 2016*  
*Max length: 3,000 words*

“It is not possible to compel fiscally responsible behaviour simply by passing laws or constitutional amendments to that effect. … This does not mean that legislation should have no role in promoting fiscal responsibility. Legislation ought, however, to be directed towards the enhancement of fiscal transparency and the promotion of independent analysis and debate on fiscal policy, and in particular on medium- and long-term fiscal policy.”

**Required:**

In the light of the above quote from Robinson:

- Explain what is meant by fiscal responsibility and why organisations such as the International Monetary Fund stress its importance;
- Discuss the approach to fiscal responsibility adopted by New Zealand’s central government. As part of your discussion be sure to describe the eight principles of responsible fiscal management, explain how each principle contributes to responsible fiscal management and to explain any flexibility the New Zealand legislation permits to governments in relation to these principles as well as any associated requirements; and
- State the extent to which you agree with Robinson, giving reasons.

This assignment will be assessed against course learning objectives 1, 2 and 3.

**Please provide a word count**

## Essay II

*Due Date: Thursday, 10th November 2016*  
*Max length: 3,000 words*

In both central and local government there is continuing pressure for public organisations to be “better performing”. Does this simply mean providing more for less (i.e. being more efficient) or are there also other criteria by which the performance of public sector organisations might be judged?

What challenges do public sector organisations face in accounting for, and reporting on, their performance?
This assignment will be assessed against course learning objectives 2 and 4

Please provide a word count

4 Wiki II
Key Learnings from the Paper.
Due Date: Wednesday, 16th November 2016
Max length:
1,000 words

5%
All

Note: If you do not work for a public sector organisation, or you are a foreign student, you may need to talk to the Course Coordinator [Rodney Dormer] to arrange modified Essay and Assignment topics.

Please submit ALL assignments in a Word document via Blackboard.

Students should keep a copy of all submitted work.

Note on Quality Assurance
Your assessed work may also be used for quality assurance purposes, such as to assess the level of achievement of learning objectives as required for accreditation and academic audit. The findings may be used to inform changes aimed at improving the quality of VBS programmes. All material used for such processes will be treated as confidential, and the outcome will not affect your grade for the course.

Penalties
The ability to plan for and meet deadlines is a core competency of both advanced study and public management. Failure to meet deadlines disrupts course planning and is unfair on students who do submit their work on time. It is expected therefore that you will complete and hand in assignments by the due date. Marks will be deducted at the rate of five per cent for every day by which the assignment is late and no assignments will be accepted after five working days beyond the date they are due. For example, if you get 65% for an assignment, but you handed it in on Monday when it was due the previous Friday, you will get a mark of 50%.

If ill-health, family bereavement or other personal circumstances beyond your control prevent you from meeting the deadline for submitting a piece of written work or from attending class to make a presentation, you can apply for and may be granted an extension to the due date. You should let your course coordinator know as soon as possible in advance of the deadline (if circumstances permit) if you are seeking an extension. Where an extension is sought, evidence, by way of a medical certificate or similar, may be required by the course coordinator.
Group Work
The course requires 6 hours of group work between modules. This work is considered part of the class structure, but rather than being accommodated in a longer module day (i.e., 9.00 to 5:00), the equivalent of 2 hours per module can be flexibly scheduled by groups of students, with tasks undertaken and reported back.

Academic Integrity, Plagiarism, and the Use of Turnitin
Plagiarism is presenting someone else’s work as if it were your own, whether you mean to or not. ‘Someone else’s work’ means anything that is not your own idea. Even if it is presented in your own style, you must still acknowledge your sources fully and appropriately. This includes:

- material from books, journals or any other printed source
- the work of other students or staff
- information from the Internet
- software programs and other electronic material
- designs and ideas
- the organisation or structuring of any such material.

Acknowledgement is required for all material in any work submitted for assessment unless it is a ‘fact’ that is well-known in the context (such as “Wellington is the capital of New Zealand”) or your own ideas in your own words. Everything else that derives from one of the sources above and ends up in your work – whether it is directly quoted, paraphrased, or put into a table or figure, needs to be acknowledged with a reference that is sufficient for your reader to locate the original source.

Plagiarism undermines academic integrity simply because it is a form of lying, stealing and mistreating others. Plagiarism involves stealing other people’s intellectual property and lying about whose work it is. This is why plagiarism is prohibited at Victoria.

If you are found guilty of plagiarism, you may be penalised under the Statute on Student Conduct. You should be aware of your obligations under the Statute, which can be downloaded from the policy website ([www.victoria.ac.nz/home/about/policy/students.aspx](http://www.victoria.ac.nz/home/about/policy/students.aspx)). You could fail your course or even be suspended from the University. Plagiarism is easy to detect. The University has systems in place to identify it.

Student work provided for assessment in this course may be checked for academic integrity by the electronic search engine [www.turnitin.com](http://www.turnitin.com). Turnitin is an on-line plagiarism prevention tool which compares submitted work with a very large database of existing material. At the discretion of the Head of School, handwritten work may be copy-typed by the School and subject to checking by Turnitin. Turnitin will retain a copy of submitted materials on behalf of the University for detection of future plagiarism, but access to the full text of submissions will not be made available to any other party.

There is guidance available to students on how to avoid plagiarism by way of sound study skills and the proper and consistent use of a recognised referencing system. This guidance may be found at the following website [www.victoria.ac.nz/home/study/plagiarism.aspx](http://www.victoria.ac.nz/home/study/plagiarism.aspx). If in doubt, seek the advice of your course coordinator. Plagiarism is simply not worth the risk.
Student Feedback

Student feedback on University courses may be found at www.cad.vuw.ac.nz/feedback/feedback_display.php.

Access to Blackboard

Blackboard is Victoria University’s online environment that supports teaching and learning by making course information, materials and other learning activities available via the internet through the myVictoria student web portal. Ensure that you can access Blackboard before the course begins.

To access the Blackboard site for this course:

1. Open a web browser and go to www.myvictoria.ac.nz.
2. Log into myVictoria using your ITS Username (on your Confirmation of Study) and password (if you’ve never used the Victoria University computer facilities before, your initial password is your student ID number, on your Confirmation of Study, Fees Assessment or student ID card – you may be asked to change it when you log in for the first time).
3. Once you’ve logged into myVictoria, select Blackboard (from the options along the top of the page) to go to your Blackboard homepage.
4. The “My Courses” section displays the courses you have access to – select the appropriate link to access the course-specific Blackboard site. Please note that only courses that are actually using Blackboard and have been made available to students by their respective course coordinator will be displayed.

If you have any problems gaining access to Victoria University’s computer facilities, such as myVictoria and Blackboard, you should contact the ITS Service Desk on (04) 463 5050 or its-service@vuw.ac.nz. See www.victoria.ac.nz/its/student-services/ for more information.

Power-point slides and other lecture materials that are posted on Blackboard may differ from the presentations used in class, as the copyright rules for archived presentations differ somewhat from those for live presentation.

Communication of Additional Information

Information will be communicated via Blackboard. It is essential, therefore, that you activate your @myvuw.ac.nz email account (the free email account created for you when you enrol and accessed via the myVictoria student web portal) before the start of the course. Once you have activated your @myvuw.ac.nz email account, if you want to receive these emails at your preferred email address (e.g. your home or work email address), you must modify the settings so all emails sent to it are automatically forwarded to your preferred email address. For more information, please go to: www.victoria.ac.nz/its/student-services/FAQs.aspx#Email_Foward.

Link to General Information

For general information about course-related matters, go to www.victoria.ac.nz/vbs/studenthelp/general-course-information.
School of Government Service Standards

Good learning and teaching outcomes for students in School of Government courses depend on many factors, including open, transparent and accountable relationships between teaching and support staff, and students in their various activities. The following service standards indicate some of the key expectations that teaching staff and students can have of each other. In all cases, they represent what the School believes should be ‘normal’ practice; exceptional circumstances can and will be negotiated as required.

Please note that there are University-wide policies relating to assessment – including rights of review and appeal. Details may be found in the Assessment Handbook (which is reviewed and updated from time to time – [www.victoria.ac.nz/about/governance/dvcacademic/publications](http://www.victoria.ac.nz/about/governance/dvcacademic/publications)).

In general terms, any concerns that a student or students may have should be raised with the course coordinator in the first instance. If that course of action is not appropriate, the School’s programme support staff will direct you to the relevant Programme Director/Coordinator.

**Standards relating to staff timeliness of responses to email and phone queries:**

- Email or phone queries from students will be responded to in 48 hours

**Standards relating to availability of course materials:**

- Students on modular or intensive courses will usually have course materials at least 4 weeks before the course starts
- Students on weekly courses will usually have course materials available on the first day of the course

**Standards relating to attendance:**

- It is expected that students will attend all contact teaching sessions for a course. If a student is aware that they will be unable to attend part of a course prior to it commencing, they are required to advise the course coordinator. In such a situation, the student may be declined entry into the course.
- Where a course coordinator approves some non-attendance before the class commences, the course coordinator may set additional item(s) of assessment of learning and teaching objectives for the course for students unable to attend. Advice relating to the submission and assessment of any such additional assessment will be provided by the course coordinator.

**Variations to the assessment details provided in the course outline:**

- Any variation to the assessment details in the course outline will be formally agreed between the course coordinator and students at the earliest possible time, preferably at the beginning of the course.

**Standards relating to assignments – turnaround and feedback:**

- Unless otherwise agreed between students and the course coordinator, items of assessment will be marked within 15 working days of submission.
- Comments on pieces of assessment will allow students to understand the reasons for the mark awarded, relative to the teaching and learning objectives specified in the course outline, and will usually include advice on how the student can improve their grades in future assignments.
